

MEDIUM AUTHENTICITY RISK

Automated risk assessment for 07YTY7XKZW.jpg.

Recommended action: Inconclusive automated result; seek additional evidence or manual review.

Evidence-Weighted Risk Score

47%

AI Forensic Summary (summarization of detector signals only — not an authenticity verdict)

Analysis of the file indicates a JPEG image that lacks embedded EXIF metadata. Signals from the image manipulation model suggest potential artificial modification, resulting in an overall medium risk classification.

Detector Signals & Evidence Breakdown

Signal Label	Risk Score	Weight	Technical Detail
File inspection	0%	0.1	image/jpeg · 27.3 KB · SHA-256: 08c025b1b120e7ca75...
Image metadata inspection	N/A	0	Format: JPEG · 256×256px · EXIF: Absent
Image manipulation model	52%	0.9	Fake (52.25%)

Model Attention Heatmap (GradCAM)

Red and yellow regions highlight visual areas that most influenced the prediction.
